waste another dollar of your money!

Note buried tanks. From these, pump draws (A) promium quality Blue Sunoco "200", and (B) Sunoco Octane Concentrate (specially refined motor fuel). These are precisely blended by the pump to the exact blend number ordered. Approved by versious governmental enthocities The wasting is over and done with. When you pull up to your Sunoco dealer's Miracle Pump you get gasoline matched to your engine's octane needs exactly. You get big power without wasting money on octane your car doesn't need.

Because there are six Sunoco blends...6 octane strengths... you can be sure of getting an exact octane-fit for your engine. And, each of Sunoco's blends is the finest quality fuel your money can buy! You'll enjoy instant getaway . . . surging passing power, and freedom from harmful engine deposits and spark plug fouling.

And Custom-Blending is so easy! Just start with the blend recommended for your car by your Sunoco dealer. Next time try the next lower blend at the next lower price, and so on, until you find the blend that performs the best, yet costs the least!

Big power at "Regular" Price! Sunoco Custom Blend "200" means big new power for many "regular" users. It's proved higher octane than most "regular" buyers are getting anywhere else! It's higher quality...highest value!

The matter of raising state taxes on gasoline is schedled to come up in 25 state legislatures meeting in 1959. New York has already raised its gasoline tax from four o six cents, beginning March 1.

Is the day coming when the tax-boosters will seek nore in gas taxes than the cost of the gasoline? It undoubtedly will unless the car users strenuously object to their gas taxes being used in all manner of public spending other than roads.

### You Pay Less

TRUCKS ARE VITAL to every industry in Michigan and no service or commodity which affects your day-to-day living could reach you without trucks.

That is the BASIC way in which trucks serve YOU. But they benefit you in OTHER important ways, too.

For example—latest available figures show that Michigan's trucks pay over \$65,000,000 annually in State registration fees and gasoline taxes alone, plus several millions more in mileage taxes and special taxes levied on the larger vehicles. In addition, of course, trucks pay all the other taxes charged against any business enterprise in Michigan — real estate property taxes, personal property taxes, business—activities taxes, sales taxes, intangibles taxes, franchise taxes.

All these millions in taxes the trucks pay go to support the general welfare, to help pay for modern roads, hos-pitals, schools and colleges, parks and playgrounds, police and fire protection.

So, you see, thanks to the trucks, you pay less.

Three University of Michigan professors reported results of their research showing that jobless benefits in all states are generally inadequate.

They said that all workers should covered. Michigan's law covers those in plants with four or more workers. They said benefits should last 30 weeks, some seven and one-half months. Michigan's runs 26 weeks, or six months,

They said that a worker should get 40 per cent of his take home pay while jobless. Michigan's ranges from 40 to 50 per cent.

The AFL-CIO in Michigan is now campaigning for perpetual uncmployment compensation, benefits for the entire period of unemployment, no matter how

ong.
Republicans in the legislature are proposing a plan under which workers would contribute to the fund which is tapped for the benefit checks.

The idea was first brought up for consideration by the unions, but Republicans stole a march on them by publicly announcing the idea early.

Oddly, unemployment compensation started first as a fringe benefit for workers, negotiated by unions with a strike threat as its

### What's the first thing to do in case of fire?

Call the Fire Department! Many homes could be saved if this were done. Of course, you should keep a fire ex-tinguisher handy... follow safety rules set up by the Fire Department.

But safety rules aren't always enough. Make sure your home is fully protected with fire insurance, too. Call us for a checkup.

VACUUM TUBE INVENTOR, PRAISES HEARING AID

Lee de Forest, who made modern radio and television possible through his invention of the vacuum tube fifty years ago, recently lavished high praise on a revolutionary new hearing device called "The Listener." "It is," Dr. de Forest said, "without question the finest hearing aid I have everworn. Nothing compares with it for the quality of hearing it gives."

Commenting further. Dr. de Forest Commenting further, Dr. de Forest continued: "The advantage of earlevel hearing and the elimination of irritating clothing noises make 'The Listener' a real pleasure to wear. In fact, it overcomes all the objections I previously had to wearing a hearing aid."

So great has been the interest in this remarkable new electronic hogring achievement, the makers have pre-pared an illustrated report outlining in detail how it functions. These in-terested may obtain a free copy from Grayling Pharmacy, 208 Michigan, Phone 5051.
